WHAT

WHAT IS THE HACKATHON?

This is just one of many events organized in celebration of the **ILO's centenary**.

The hackathon is a free event. It will be held on from **6 to 7 April** at **Teatro Espace** - Via Mantova 38, Turin.

All innovations will be presented during the ILO100 Global Tour, a global online event featuring livestreams from 24 countries with ILO offices.

WHAT ARE THE TOPICS?

Artificial intelligence, 3D printing, cognitive computing, big data, automation, the internet of things, advanced robotics, blockchain. These are just a few of the buzzwords **making an impact on jobs and the way we work today.**

The traditional order of the workplace is falling by the wayside. Employee profiles are shifting, and office culture is transitioning. The entire **learning ecosystem** needs a **rethink**: How can we provide students and workers with the technical, digital, and social skills they need to cope with constant change?

We spoke with futurist **Gerd Leonhard**, who identified five "**megashifts**" that will impact the future of learning:

- Digitization
- Mobilization
- Screenification
- Disintermediation
- Transformation

In this 48-hour hackathon, students will come up with creative responses to these trends.

WHY

WHY SHOULD I JOIN?

- All innovations will be **presented** during the **ILO100 Global Tour**,
- It's an opportunity for students to **showcase their talents and expertise,**
- Students will meet **with international experts.**

WHO

WHO CAN PARTICIPATE IN THE HACKATHON?
