

# SUSTAINABLE BUILT ENVIRONMENT TOWARDS POST-CARBON CITIES TORINO 2016

POLITECNICO DI TORINO  
LINGOTTO

Via Nizza, 230

18-19 FEBRUARY 2016

The objective of **SBE16 Torino** is to present new paradigms in the shift towards post-carbon cities, bringing together diverse experiences and perspectives, exchanged in a friendly workshop with a rigorous scientific approach. The conference, promoted by the **City of Torino**, **CESBA**, and the EU FP7 project **FASUDIR**, is organized by **DIST Politecnico and Università di Torino** and **iisBE Italia**, under auspices of international conveners **CIB**, **iisBE**, **UNEP-SBCI** and **FIDIC** and belongs to the Sustainable Built Environment regional conference series leading towards **World Conference SBE17 Hong Kong**.

**Free registration\*** for students (including PhD) until **Monday 15<sup>th</sup> February**

*\*send proof of current academic enrollment after registration*
