INTEGRATED URBAN DEVELOPMENT STRATEGIES IN EU COHESION POLICY 2014-2020

Carlotta Fioretti

Ricercatrice, Joint Research Centre, European Commission

The EU is committed to sustain the urban dimension of EU policies, first politically with the Urban Agenda for the EU, and secondly operationally mainstreaming the integrated approach to urban development in its Cohesion policy. During the current programming period 14 billion of euro (7,85%) of the European Structural and Investment Funds has been allocated to strategies for Sustainable Urban Development.

The Joint Research Centre is working in a project called "URADEV. Support knowledge management of EU measures in Integrated Urban and Territorial development", which is aimed at understanding how the concept of an integrated approach to urban development is being implemented on the ground, and to provide insights for the post 2020 architecture of the urban dimension in European Structural and Investment Funds. STRAT-Board, an innovative interactive toolbox, publicly available on the web, aims to build an integrated knowledge-base on the implementation of urban and territorial strategies supported by the EU.

Carlotta Fioretti is research fellow at the Joint Research Centre (JRC) of the European Commission in Seville, Spain. She holds a PhD in "Territorial policies and local project" obtained at University of Roma Tre (2011). She worked as researcher at Architecture and Design Scotland (2007), Censis Foundation (2012-2014), Sciences Po (2016) and University of Roma Tre (2008 -2017). From 2009 to 2017 she taught at Cornell University, Rome programme and University of Roma Tre. Her research interests concern urban regeneration, migration and the city, sustainable urban development, EU cohesion policy.
