Planning for Heritage Lecture Series #2

Within the Course Planning for Heritage, international experts bring insights on methodologies and practices of knowledge, management and enhancement of urban and landscape heritage. These lectures also address to the students of the Post-Graduate School of Architectural Heritage and Landscape.
Conveners: Claudia Cassatella, Mauro Volpiano

18 May
h. 10:00-11:00

On integration of cultural landscape and urban heritage in UNESCO conservation and management plans: Bethlehem Area CMP

Elisa Palazzo

Senior Lecturer at UNSW Sydney, architect/urbanist and landscape planner with a broad international experience in both academia and the profession. Her Ph.D. in urban design, regional and environmental planning examined the role of landscape architecture in urban design to achieve more resilient and environmentally sound cities. Dr Palazzo has a 20 years experience in large scale public domain project management, including cultural landscapes, carried on for government and international organisations such as UNESCO.

25 May
h. 15:00-16:00

The diversity of conservation - international case studies

Rand Eppich

Conservation architect, researcher, and manager. MBA from UCLA; Ph.D. on social-economic development utilizing cultural heritage from UPM. Rand spent 13 years at the Getty Conservation Institute as Senior Project Manager and has lectured at the British Museum, the University of Pennsylvania, the University of Navarra, KU Leuven, the American University RAK, ATHAR, ICCROM, UCLA, and METU. His work includes assignments for the World Bank, UNDP, OSCE, EU, European Regional Development Fund, Inter-American Development Bank, the World Monuments Fund, and the Global Heritage Fund.
