Sargomma is reflecting on possible new approaches to the lunchbreak and to the lunch box of the future. Students can take part in this challenge considering the possible characteristics of lunches in the future. The following functional and aesthetical issues should be taken into account:

- the sustainability of materials and production processes;
- a captivating and inspiring product design;
- how easy it is to carry the lunch container;
- ensuring optimal storage and preservation qualities;
- how easy it is to clean the lunch container.

The Challenges are worth 8 curricular or extra-curricular credits.

Check the curriculum of your degree programme to verify if you have the possibility to choose a Challenge in substitution of your free choice credits.
