

ALTA SCUOLA POLITECNICA

CALL FOR APPLICATIONS A.Y. 2022/23 (19th CYCLE)

Alta Scuola Politecnica (ASP) is a **Multidisciplinary and unique international honours program** created by Politecnico di Milano and Politecnico di Torino for Engineers, Architects, Urban Planners and Designers. Alta Scuola Politecnica selects each year 150 exceptionally **talented and motivated students** among the applicants to the Master's Degree programs in Architecture, Design, and Engineering at Politecnico di Milano (90 students) and Politecnico di Torino (60 students). The ASP study plan consists of additional **Courses (Residential Schools)** and **Multidisciplinary Projects**. **ASP courses are cross-cultural** and built on top of the technical knowledge and skills acquired by the students in their specific Master's Degree. Their goal is to discuss **interdisciplinary issues common to any innovation project in Engineering, Architecture and Design**. Students participate to **multidisciplinary projects**, focusing on **real and relevant problems**, proposed as a collaboration between Universities and external institutions (i.e., **firms, governmental or research institutions**). **The official ASP language is English**. **The ASP Alumni Association** is the network putting together students who graduated from Alta Scuola Politecnica and professors, board, and staff who desire to stay connected with such community. Led by a board of young alumni, the ASP Alumni Association promotes activities to hold the community together by fostering interaction among members through social networks and other communication tools and organizing **formal mentoring programs, seminars and informal mentoring meetings** for current ASP students.

Application Deadline at Politecnico di Torino

21st October 2022 at 12.00 pm (noon - Italian time)
