

In the frame of Horizon 2020 MSCA-RISE-2015 project:

PHOTOFLUO

*Partners: Politecnico di Torino
Ecole Nationale Supérieure de Chimie de Montpellier (France)
Trinity Western University (Canada)*

Dr. Christine Joly-Duhamel and Prof. Chadron M.Friesen will give public lectures on:

Alternatives to the UV (meth)acrylic PHOTOPOLYMERS

Solving difficult problems: forming difunctional fluorinated ethers from anionic methods

The talks will follow a short description of the project by the Coordinator Prof. Roberta Bongiovanni (DISAT).

18th July 2016 10 am Aula Perucca
